- Auto power off

VCR/Universal TV/CBL/DBS Remote with Lighted Buttons

Let's make things better.

PHILIPS

4-Head Hi-Fi Clock/Function Video Cassette Recorder with VCR Plus+™ Programming

Programming and Playback Features

Hi-Fi Stereo Sound with Built-In MTS/SAP Decoder

Record stereo videotapes from stereo sound sources and playback pre-recorded hi-fi stereo tapes in hi-fi stereo sound using two audio heads and four video heads. Delivers an excellent 90dB+ dynamic range–through a stereo-equipped TV or regular TV and stereo hi-fi home audio system. The built-in MTS/SAP decoder allows reception and recording of off-air television stereo broadcasts and second audio program transmissions, where available. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

VCR Plus+™ Easy Taping

Simplifies VCR programming by allowing you to simply enter PlusCode® programming numbers found in many published television listings. When recording begins, your VCR automatically selects the proper TV channel and program length. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

Auto DBS RecordLink™

If you own a satellite dish, this is the feature you've been waiting for. Set your DBS receiver to turn on and tune in to a specific program and it will automatically turn on the VCR in the record mode and then turn off when the DBS receiver turns off. The secret is in the A/V input jack panel. It senses the presence of a video signal…and the rest is history.

One-Touch Record

8-Event/1-Year Smart Programming

Remote Control Onscreen Menu Programming

Picture

4-Head, Double Azimuth Design

Combines direct drive cylinder and capstan motors with precision digital servo control to produce smooth "Still" and "Slow" effects in both SP and SLP speeds. Using the appropriate remote, you can enjoy other excellent special effects such as "Frame Advance," "Variable Slow Motion," and "x2 Play."

SmartPicture™

Customize picture to your viewing preferences for maximum enjoyment with SmartPicture. A touch of the SmartPicture button on the remote control provides the option of selecting one of four factory preset positions including natural, distinct, soft, or sharp.

Auto Head Cleaner

19 Micron Head

SQPB (S-VHS Quasi-Playback)

Digital Auto Tracking

Convenience

SmartClock™ with Time Zone Select

This menu-driven feature automatically maintains the correct time, regularly checking and updating the time if necessary. It also resets the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their cable service provider or broadcaster.

ShowGuard™ Timer Programmer Backup Memory–Indefinite!

Large Clock/Function Display with auto dimmer

Front Panel Audio/Video/Game Inputs

Child Lock

Bilingual (English/Spanish) Onscreen Function Display

Alternate Channel (for TV)

Onscreen Real-Time Counter with Time Search

Record End Search

Repeat Play-Indefinite!

400mm Front Panel Width

On-Board Shuttle Dial

Special Effects

High Speed Deck

Philips High Speed Deck cuts fast forward and rewind time in half (about a minute for T-120 tapes) using a microprocessor to measure tape wheel revolutions. This reduces waiting time between playback for the utmost in speed and convenience.

"Commercial" Skip Search

Variable Slow Motion

Still Frame

Index Search System

Remote (Remote # N9411UD)

VCR/Universal TV/CBL/DBS Remote with Lighted Buttons

Multifunction infrared remote controls all operating features and functions of this VCR, plus select functions of most Philips, Magnavox and some competitive brand television sets, as well as some cable converter/decoders, and standard features of Philips, Magnavox, RCA, and Sony, digital broadcast satellite receivers. Change channels fast with the numeric direct access keypad and heads-up onscreen display for confirmation.
